

O'Daniel Is Elected by Narrow Margin

Rent Places Are Being Signed Up

Clerk Will Be at City Hall Until Saturday to Fill Out Applications

Miss Ollie Guthrie is at the City Hall daily signing up citizens who have dwellings and apartments for rent. Riley Strickland was here Tuesday to start the work in Canyon and believes that all citizens should be registered by Saturday noon. All who rent rooms to one or more persons must register under the regulations.

The question of fixing up more apartments for rent in Canyon is a vital problem. Mr. Strickland says that the question of priorities in order to make needed repairs so that more apartments will be made available will be taken up as quickly as possible. While he has no authority over priorities, he will recommend to the proper authority that Canyon property owners be given needed materials for the purpose of fixing up more rooms for workers in the war plants.

Provision is made for the adjustment of rent in cases where repairs have been made on the property. Each of these cases is considered separately.

Every citizen of Canyon who has renters should see Miss Guthrie before Saturday noon as Sept. 15 is the final date for signing up and she will not be here next week.

Men Will Leave Saturday to Start Military Service

Nineteen men will leave Saturday for Ft. Sill, Okla., to begin their military service in the army. They were inducted at Lubbock last week and have been home on a 14-day furlough.

The following is the list:

Newel Jackson Barefoot, officer candidate; William Dudley Arden, Carl Dudley Coffee, James Harrison Platt, Kenneth Roy Thomas, Edmund Ovid Leithausen, Henry Herman Berend, Arthur Gene Cooper, Claud Everett Heaton, Carl Barnes Mahle, Roscoe Samuel Wilkins, Jr., Earl Mitchell Brooks, Jr., Robert Davis Turpin, Leonard Clifton Walker, Richard Hubert Peery, Robert Ray Goodnight, John Christian Schramm, William Warren Sternberg, Jos Sebro Borquez.

Volunteering in the navy this week were: Murray Dwayne Ford, Harold Lynn Heizer and Denver Vernon Farley.

A new group of selectees will take their physical examination at Lubbock on Sept. 22. The call is for 28 men.

The October call is for 31 men on October 30.

Flying Club Is Formed by Ten Local Citizens

Several business men and their wives met Friday evening in the City Hall to organize the Canyon Flying Club, C. P. T. No. 1. At this meeting officers were elected as follows: G. W. Cox, president; Neely Cox, vice president; Mr. and Mrs. R. T. McDaniel, secretary and treasurer; Mrs. Felix Pierce, reporter; J. A. McDonald, mechanic.

The plane, an Arronica, has been bought and delivered to the new field. The building of the hangar started Monday next to the College airport north of town on the Amarillo hill. Instructions by the college instructors began Monday afternoon.

A membership of ten was set as a limit. Other members are Mrs. G. W. Cox, Mrs. Neely Cox, Mrs. McDonald, Mr. and Mrs. Chick Neilson and Mr. and Mrs. Herschel Jennings.

Capt. W. E. Lockhart Is In Hospital

Capt. W. E. Lockhart is in the hospital at Fort Sill, Okla. He had an attack of hiccoughs Saturday night. He had played golf Saturday afternoon, according to his daughter, Mrs. Charles Mayes.

Mrs. Lockhart states that her husband was improved yesterday and hoped to be out of the hospital soon. Capt. Lockhart had an attack several years ago which caused him to give up active work for several months.

Mrs. Nellie Witt Spikes of Floydada and Mrs. T. H. Ellis of Lubbock are visiting Mrs. Lorenzo Wirt and Mrs. Cass Jennings.

Smith, James, Jester and Pitts Are Chosen in Light Vote Last Saturday

Randall county polled only 1,491 votes in the election last Saturday, which is about 800 under the normal strength of the county. James V. Allred carried Randall county 950 to 541. Senator W. Lee O'Daniel polled a smaller number than he did in July and led in only three precincts of the county. He led in 7 precincts of the county in July.

Randall county voters favored Senator John Lee Smith, who was elected Lieutenant Governor; Jesse James, elected State Treasurer; Beauford Jester, elected Railroad Commissioner. Randall county voters favored Judge E. C. Nelson, who was defeated by Judge E. L. Pitts of Lubbock for the office of Chief Justice of the Court of Civil Appeals.

Senator W. Lee O'Daniel will go back to Washington for the six year term. He carried 165 counties and Allred carried 87 counties. Two counties did not hold second primaries.

According to the Texas Election Bureau 880,848 votes were cast in the August primary. O'Daniel has received 449,220 and Allred 431,628. O'Daniel has a lead of 17,592.

Donations Made to Furnish 200 Red Cross Kits

Donations for the Red Cross Kits have reached \$194. This is almost half the amount. The quota is four hundred kits each costing \$1.

Worth's Shoe Shop has promised to donate the amount of shoe laces needed each month. J. M. Black made some cabinet doors as his contribution. Others have donated money, time, and books.

Old pocket book editions and recent issues of Reader's Digest are especially needed. These kits are given to all men embarking for foreign service. They contain playing cards, cigarettes, writing paper, shoe strings, razor blades, gum, book, soap, needle and thread.

"The citizens of Canyon have responded well to this and I wish to thank all who have donated time and money to this cause," stated Mrs. George Melton, chairman of the Red Cross.

Anyone wishing to donate the money or any organization wishing to make the kits are urged to call at the Red Cross office or see J. W. Shook.

Bond Sales Are Short for August in Randall County

Randall county is \$4,063 short of the August quota in the sale of War Bonds. County Chairman R. H. Wright hopes that the sales will increase daily during the last three days of the month so that the quota will be met.

The quota for August is \$17,500, and the sales amount to only \$13,437 so far this month.

Randall county went over its quota for July, but the sales have dropped off considerably this month. All sales made up to Monday afternoon will be counted on the August quota.

Leron O. Middleton Found Dead Thursday Morning at Home

Leron Oressel Middleton, 39, was found dead on the front porch of the parental home south of Canyon Thursday morning. A .22 rifle was by his side.

Mr. Middleton had been inducted in the army at Lubbock the Monday previously and was home on a furlough. He had assisted with the morning milking.

The funeral was held at the Methodist Church at 3 o'clock Friday afternoon, conducted by Rev. C. C. Armstrong.

Interment followed in Dreamland Cemetery in charge of the Griggs-Thompson Funeral Home. Active pall bearers were: H. W. Crain, Newton Crain, L. H. Heiser, T. V. Slack, Sam Hill, L. H. Crawford. Honorary pall bearers were: R. M. Tankersley, James Jennings, C. H. Lowe, Christler Crain, M. O. Slack, E. A. Oberst, D. S. Hill, T. C. Gooch, and E. Gidden.

Survivors are: the parents, Mr. and Mrs. F. D. C. Middleton; three brothers, Calvin Middleton, Willard Middleton, Jack Middleton, all of Amarillo; four sisters, Mrs. Opal Whitney of Las Cruces, N. M., Mrs. Gordon Thompson of Lubbock, Miss Mildred Middleton of Lubbock, Mrs. Bob Black of Canyon.

V-Mail for Boys Foreign Service

Speedy Mail Service Is Provided for Letters to American Troops Abroad

If you have friends in the armed forces in the British Isles, Australia, India, or Hawaii, you may get letters to them in a very short time by using V-Mail. This service is being opened for other countries where American troops are being sent.

Paper for V-Mail is furnished free at the postoffice. Full instructions are printed on the combination letter paper-envelope.

When the letter is mailed, it goes to New York or San Francisco where it is photographed and the film sent by plane to the foreign destination. The letter is reduced on films in order to save space. Each roll of film carries 1,500 letters, and the weight is only a fraction of that of a letter. When the film reaches the key postoffice overseas the message is reproduced to full size and forwarded to the man for whom it was intended.

The original letter is destroyed after word has been received that the letters are delivered.

The saving in space in ships and planes is tremendous. Every pound that is saved in the weight of letters is made available for food and ammunition for our men.

The postoffice department urges that all persons use this kind of paper. Black ink is necessary; write plainly, and do not crowd the message on the paper.

Forgery Charge Is Filed on Man; Awaits Grand Jury

Sidney Wiley Pittman of Lawton, Okla., is in jail awaiting the action of the grand jury next month. He is charged with forgery of \$15.

Pittman was going under the name of Wayne Moore. He succeeded in passing one check, and Sheriff M. E. Cantrell found other checks which he had made out but had not been passed.

After securing money on the first check he is said to have sent the money to Vega where he had been working.

He presented a second check at a local store where it was questioned. Fortunately the farmer on whom it was drawn walked in as the check was being examined. The man was held until Sheriff Cantrell arrived and took him in charge. He claimed that another man was working with him, and that he was only cashing the checks.

Merchant School Meets Tonight; Again on Tuesday

Attendance at the merchants' school this week has been smaller than anticipated. The school is conducted by the Extension Department of the University of Texas and is brought to Canyon free of charge.

Classes will be held at 8 o'clock on Monday and Thursday nights. Those who have not attended are invited to come to the meeting tonight.

J. P. Williamson is presenting the course for the benefit of local merchants who are confronted with war-time emergencies. The entire course is designed to assist small town merchants in meeting changing conditions during the war.

An afternoon class at 2:30 o'clock on Monday and Thursday was organized Tuesday for women and girls who would like to secure positions as clerks in stores, either full or part time.

Union Service Will Be Held at Methodist Church Sunday Night

The regular union service of the Presbyterian, Christian, and Methodist congregations will be held at the Methodist Church Sunday night at 8:30 o'clock.

Rev. Joe Findley, pastor of the Presbyterian Church, will preach the sermon.

Large congregations have attended the Sunday night union services at the three churches since the series started in July.

Community singing is stressed at these services.

Rev. Joe Findley Rejected Chaplain on Account Eyes

Rev. Joe Findley took the physical examination at Lubbock Tuesday for Chaplain in the armed forces. He was rejected because of his eyes.

Rev. Findley made application several weeks ago through his church, and was recommended by the Christian Church to serve as Chaplain during the war. He passed all of the requirements with the exception of poor vision.

"I regret that I was not able to go into the armed forces," stated Rev. Findley yesterday, "but I shall do my best as a pastor to keep up the morale of the folks who are left at home."

Drivers License of County Must be Renewed in Sept.

All drivers' licenses in Randall county will expire on November 1. Drivers are asked to have these licenses renewed during September in order to be equipped with the new license at the expiration date.

A member of the State Highway Patrol will be in Canyon each Monday morning, 9 to 12 o'clock, and all day each Friday. He will take applications for renewals at the County Attorney's office. The cost for renewals is 50 cents each.

All Citizens Urged to Turn in Iron, Brass, Rubber, Other Junk

Pile Junk in Alleys and City Trucks Will Haul the Junk to Reception Station

The drive for junk is on throughout the nation. Metal must be secured at once to keep the furnaces in full operation turning out steel for munitions.

The committee working in Canyon urges that all scrap brass, rubber and other valuable materials be placed in the alleys by Saturday of this week. Most citizens are willing to donate this material as any profit goes to the Red Cross. The city trucks will start gathering the junk and hauling it to the assembly pile.

A letter was addressed to all farmers of the county by County Agent W. H. Upchurch as follows:

"The Government is again asking that we gather all our scrap iron and get it into the war effort as soon as possible. Our production of steel is not as great as it should be. More scrap iron is needed to help our production of tanks, guns and planes. The gathering of scrap iron, like the war, is a continuous job. We must not fail in our small part of either job.

Let's take time to separate all the scrap metal on each farm into two piles. The scrap pile and Jap pile. Let's keep in the scrap pile only such machinery parts and scrap iron as will be needed for repair work in the near future. Let's put all the other scrap metal of every sort into the Jap pile and see that all of it gets into a dealers

W. H. Harden Is Looking For More Apartments to House People Who are Here

W. H. Harden wishes every citizen of Canyon who has rooms, apartments or houses to rent to phone at 54 or see him at once.

The seismograph crew arrived Friday and several families have not yet found apartments. The Phillips pipeline crew arrived a few days earlier and many of them have not been properly housed.

In the meanwhile the demand increases from families working on the war plants near Amarillo.

Mr. Harden asks two things: 1. List your housing facilities at once; 2. Report when your facilities are rented or when they become vacant.

Unless owners list all of their rooms, Mr. Harden does not know where to send people when they call for living quarters. And after the quarters are taken, he certainly wants to know about it so as not to send other people to look at the quarters.

Mr. Harden is spending about 12 hours daily trying to keep up with the housing demands. He is locating people every day as more Canyon people decide to open their homes and take care of those wishing to move here.

Light Rains Fall in Canyon; Heavy Rains Spotted

Rains this week have again been spotted. In Canyon the moisture has amounted to only .46 of an inch. The southeast and west parts of the county received as high as 1.8 inches.

Volunteer wheat is coming up all over the county before farmers can get their fields plowed.

Has Finished Paving Work

Mayor Jarrett Has Served 9½ Years on Commission —May Call Special Election

C. H. Jarrett resigned as Mayor of Canyon yesterday. "I told the people that I would resign after the government work had been completed on the streets of Canyon, and must now look after my personal business," stated Mr. Jarrett.

Mr. Jarrett has given 9½ years of service to Canyon; three years as commissioner and 6½ years as mayor. During the past term he was called "The Best Mayor Canyon has ever had."

During the past 4½ years which he has served as mayor, 102 blocks of paving have been completed through co-operation with WPA. In addition all leave-outs on the brick paving were finished and three alleys paved. The mayor has personally directed all of this construction, which has taken practically all of his time.

The city is in excellent financial condition, these improvements having been made at a minimum cost to the taxpayers.

Commissioner S. B. Orton is acting mayor. Mr. Orton and Commissioner B. F. Oatis may appoint another member of the commission to take the place vacated by Mr. Jarrett, or may call an election. The two had not decided yesterday which method to use.

The people of Canyon regret that Mr. Jarrett has resigned as mayor and are deeply grateful for the fine services he has rendered to Canyon.

Men Arranged in Category Classes By Local Board

The Local Selective Service Board is working on the new regulation of establishing categories for all men registered for military service.

All single men who are physically fit and are without dependants are placed in Category 1, and are subject to military service. The local board feels that this category will be exhausted in October or November.

Single men who have dependants are placed in Category 2. The government has made provision to take care of these dependants.

Men who married before Dec. 8, 1941, and have no children are placed in Category 3. Randall county has a very large number of such men and it is likely that the local board will start calling these men in November or December.

All married men with children are in Category 4. The question of dependency will again enter into this category as the regulations provide that men whose dependants have outside income are first liable for military service.

Cannot Sell '42 Ford, Chevrolet or Plymouth Cars

If you own a 1942 model Ford, Chevrolet or Plymouth four-door car you cannot sell your car.

Sheriff M. E. Cantrell has received notice that it is "unlawful for any person to transfer or offer to transfer or even offer to accept a transfer," on any of these makes of automobiles.

It has been reported for several months that the government may requisition all of the late models of automobiles for war work.

Correction Regarding Dr. Jarrett's Office

The News stated last week that Dr. Robert P. Jarrett would open new offices on September 1.

This statement was an error. While the Nebbett Hospital will close on Sept. 1, both Dr. R. A. Nebbett and Dr. Jarrett will continue their offices in the hospital building until Dr. Nebbett enters the military service. Dr. Jarrett will not open new offices until Dr. Nebbett leaves for military service. The hospital will close for the duration of the war on Sept. 1.

ELECTION NO SURPRISE

The election of Senator O'Daniel Saturday was no surprise. The only element of surprise was in the small majority which he received, considering his prenominal races in the past. This was the first time that O'Daniel has been forced to meet one man, and his small majority should make the Senator realize that nearly 50% of the people of Texas are through with him as a public officer.

The campaign did one good thing. The Senator was forced to take a stand on the vital issues of the day. He has skillfully evaded issues in all of his previous campaigns, and smiled and joked his way into office. This time he felt the tide turning against him, and he was forced to declare himself.

The Senator must stand by his pledges to support the President as Commander-in-Chief, and he must support the President when it comes time of writing the peace program. His mind has been faulty in the past when it came to carrying out campaign promises, but this time it must be different.

Jimmie Allred faced an impossible situation when he entered the second primary. Most of his friends thought he would trail by 50,000 votes or more. As a matter of fact we are not too sure that Jimmie did not feel that way about it too.

Allred did a remarkable thing in holding the majority as low as he did. But as a matter of fact, Mr. Allred made a very weak ending of his campaign. His speeches became weaker as he went, while O'Daniel lost his nervousness of the early part of the campaign and settled down to making stronger appeals as the campaign progressed.

O'Daniel is a master of mob psychology. He has an appealing voice, an enticing smile and knows just how little to promise in order to appeal to his crowds. His greatest weakness is his effort to be funny on serious questions, and to his use of ridicule when he should use good sense. However, the vote indicates that a bare majority of

the voters still believes in the Senator.

The final vote in the second primary was a surprise. However, 400,000 qualified Texas voters failed to go to the polls. This will always be a source of speculation for the candidates. Allred can tell coming generations that he would have been elected had the voters been sufficiently interested to go to the polls; while O'Daniel may tell his grandchildren that he would have received his usual majority in the first primary if the voters had not let him down. If either gets any satisfaction out of this speculation it is for their own gratification.

The election is over. The people of Texas have other serious matters confronting them. The bitter strife of 1942 will soon be forgotten.

Selective Service is making a number of changes as the need for more men in the army develops. No one knows how many men will be inducted into the armed forces before the end of 1942. But you may be assured that every man who can be taken into the training camps will be inducted. We have not started to win the war, and will not start a general offensive until the United States has a large, well trained army. Men who have been rejected in the past for slight physical defects are being recalled for physical examinations. Most of these men will be accepted for limited military service, which means they will be given supply and office jobs. General Hershey announces that all local boards will start inducting married men soon. The Randall county Board has enough single men to fill the October call. After that time married men will be called into service. Under regulations married men without children will be taken first. A move is on foot in Congress to call 18 and 19 year old men, but this is not yet the law, and predictions as to what Congress will do are very unsafe.

The Junk Drive is on. Many citizens do not understand the seriousness of the junk situation. This is not a national drive merely to clean up the junk of the land. It is a drive of real and absolute necessity. Steel furnaces of the nation are not running full blast because they do not have enough old iron to feed into these furnaces. We foolishly sold the Japs millions of tons of iron instead of keeping it for our own furnaces. We are now paying the penalty for being good fellows to the ornery cusses. But cuss words will not win the war, and crying over past mistakes will not keep the furnaces running. This is a patriotic job. Selling scrap is a patriotic duty. In every town every household can gather up a few pounds of junk and give it to the cause. A dozen pounds of scrap iron, rubber, brass and other metals from every home in the nation will pile up millions of pounds of valuable and necessary materials. Let's not fall down on this job. Let every citizen of Randall county make a thorough search of his home now and get the junk out for this great national drive.

It looks like Hitler is making the same mistakes as Kaiser Bill made in 1917. Brazil is now in the war. The United Nations gain a very valuable ally. Brazil is the first of the South American nations to declare war on Germany. It looks like the Germans deliberately brought this nation into the war. It is no secret that the Nazi have operated openly in most of the South

OUR DEMOCRACY—by Mat

American nations. Hitler deliberately sunk ships of Brazil and drove this nation into the war. It is evident that the German egoism was so strong that Hitler threw caution to the wind with a feeling that the "larger they come, the harder they fall." Kaiser Bill boasted that he could whip the whole world; Hitler has taken more territory than old Bill was able to do, so naturally is willing to take on more enemies. It looks like Hitler was doing a good job for the United States in developing our Good Neighbor policy.

Jim Farley, superman of New York, whipped his former boss, the President, in the New York convention. Farley has had much to do with the political success of President Roosevelt, but opposed his third term ambitions. He stepped aside when the President decided to run for the third term, and devoted his efforts to controlling political affairs in New York. The Boss should have taken into consideration the fact that he had had his hands full of the war effort and was away from the battle lines in New York. Jim Farley knows more people in the United States than any other man. He makes a study of personalities, and never overlooks a chance to strengthen his political position. He will be a candidate for the Presidency in 1944, and this may lead to a split in the Democratic ranks if the President is determined to ask for a fourth term.

Randall county has set a new high record on wheat. The Panhandle is famed in promising less and producing more than any part of the nation. In spite of the dry spring, the wheat turned out to be a record crop. The large acreage of volunteer crop was responsible for this fine yield. The volunteer wheat had the advantage of the excellent rains of last fall and winter, while the planted wheat received very little moisture. With high priced live stock and a fine wheat crop, Panhandle farmers are getting out of debt and are generally in a good financial condition. Since they cannot buy cars and many other things which they need, the sale of War Bonds should be high among the farmers of Randall county this fall.

It is human to put off doing things which we need to do until the very last minute. Oftimes it is then too late. Talking to a former the other day, he suggested that The News tell the farmers that now is the time to think about their farm machinery for 1943. The war will make conditions even worse next year than it was this year. Therefore, every farmer should spend the winter fixing up his machinery and getting it in running condition by the time another harvest comes. While we do not profess to know anything about farming, this man is a practical farmer and his advice sounds mighty good.

There will be another depression after the war in spite of everything the government can do to hedge against it. Therefore, it is good advice for every citizen to put aside all of the money he can spare now in War Bonds so as to have an income when this depression hits. Millions of people are making more money now than they have ever before made. War activities greatly benefit many people in spite of the fact that it is hurting the small business man—bankrupting scores of lines of business. The bonds will be a mighty good investment after the war when you will really need money on which to live.

Roy Hahn of the Briscoe County News quoted a well known citizen of Tulsa as saying: "We are going to LOSE this war. We are going to LOSE this war because we don't have a leader." Roy responds: "And I say to you, we are going to WIN this war—but we are going to WIN it in spite of a bunch of knot-heads who refuse to follow that leader." Which leads us to the conclusion that we would most certainly lose the war in a hurry if the President listened to all the crackpot ideas that all of the curbstone war strategists had to offer.

Statements of under secretaries and other minor officers in Washington keep the nation in turmoil. The situation has become so bad that the President has ordered all this bickering stopped. Departments quarrel with each other over policies, and run to the press to air their differences. The United States is the only government on earth which tolerated such things. In war time it is very bad on the morale of the people.

This has been one of the finest years the Panhandle has ever experienced so far as the weather is concerned. Usually a dry summer means plenty of hot, windy days. This year has been an exception. These cool days and nights remind one that fall is rapidly approaching. We're hoping that Jack Frost will put off his visit for several weeks so that the short row crop may develop.

Whether the trial invasion of France by the Commando force means the opening of the Second Front is a military secret. However, every American is thrilled to read of the bravery and daring of our boys in this raid. Other raids will follow before the real invasion starts. Keeping Hitler jittery as to the point of real invasion is the aim of the United Nations.

We read the other day that large department stores prepare their advertising copy 7 to 9 days in advance. It is carefully prepared and arranged to meet the demands of the day. This should be a lesson to small town merchants who have the habit of waiting until the last minute to think about their advertising copy.

We don't know how fast our automobile will run. And we don't know how far we could lean out of a tenth story window without falling into the street.

YOUR SCRAP

Will Help Him FIGHT!

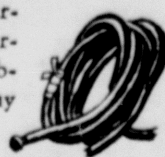

Your attic, basement or backyard may be a treasure trove. Uncle Sam needs rubber and scrap to build the weapons of war. Do your part by cleaning up and cleaning out! Trash to you may be tanks to the army.

Here's How Your Junk Can Help

An old iron will furnish enough iron for four hand grenades.

50 feet of old garden hose will furnish enough rubber for four army raincoats.

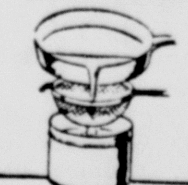

Four pairs of old overshoes will furnish the rubber for a pair of army galoshes.

One old tire will furnish enough rubber for eight army gas masks.

... And in the Kitchen—Waste Fats are Vital too

To help relieve shortage of fats and oils (needed for glycerine to make explosives) save pan and broiler drippings and deep fats after you've gotten the cooking good from them. Strain into a tin can that is spotlessly clean. Keep in refrigerator or cool dark place until you have collected a pound or more. Then sell to your nearest meat dealer.

Bomb 'em with JUNK

Let's blast Japan—and Germany—and Italy—with the chain lightning of destruction that can be built from the scrap in our cellars, attics and garages, on our farms and in our places of business.

Scrap iron and steel, other metals, rubber and waste materials. It will all be used to make tanks, ships, planes and the fighting weapons our boys must have. It is needed at once.

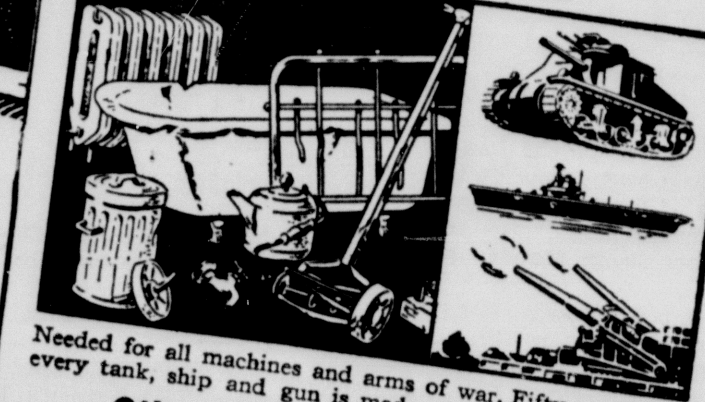

Sell it to a Junk dealer—give it to a charity or collection agency—take it yourself to the nearest collection point—or consult the Local Salvage Committee... If you live on a farm, and have found no means of disposing of your Junk, get in touch with the County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!

VACATION TRAVEL

An Up-to-the-Minute Burlington Report on Each

MILITARY MOVEMENTS are being handled with speed and efficiency. The entire Burlington organization is geared to the current wartime pace.

CIVILIAN TRAVEL is important... much of it inseparable from wartime activity. Burlington trains, headed by its speedy Zephyr fleet, are conserving time, automobiles and rubber—all of them vitally important.

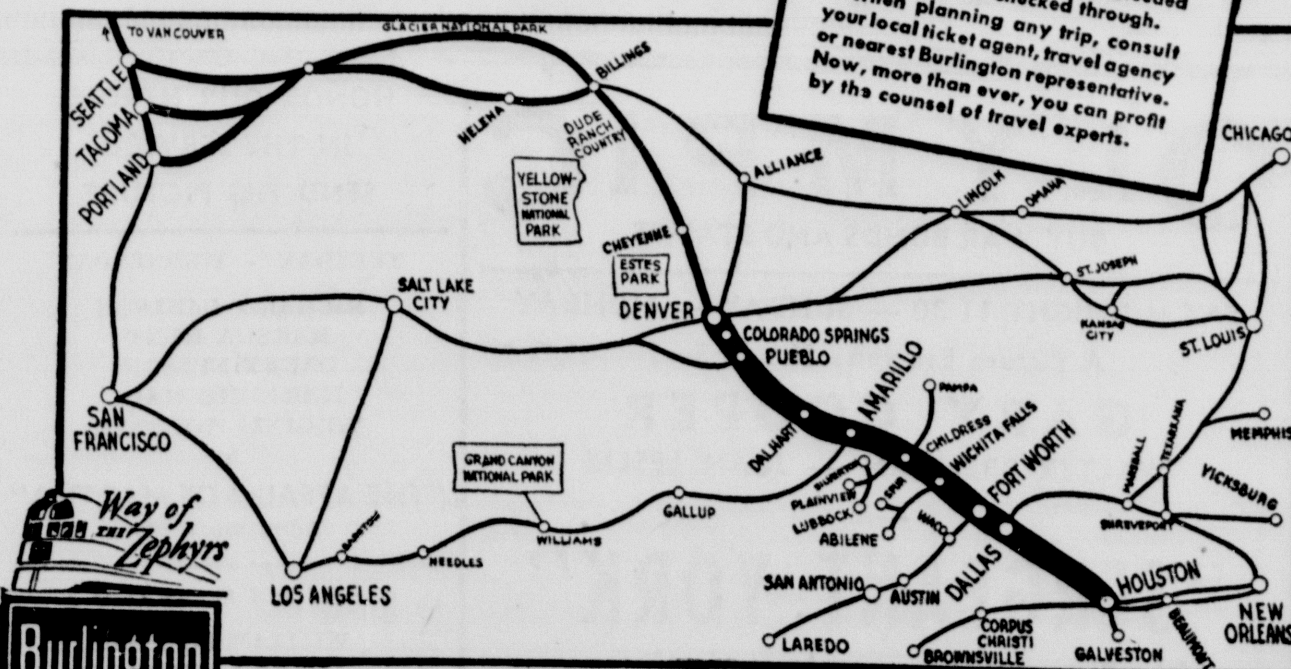

VACATIONS—Defense Transportation Director Eastman says: "Vacations are desirable from the standpoint of public health, efficiency and morale..."

Colorado, Glacier Park, Yellowstone, the Black Hills and the Dude Ranches of Wyoming, Colorado and Montana—all served by Burlington Lines are welcoming vacationists. Regular bus service is available from railroad gateways to and through these recreational areas.

THE KEYNOTE IS COOPERATION

If you are planning a trip, business or vacation, here are some specific things you can do to increase travel enjoyment:

- * Depart and return during mid-week.
- * When reservations are required, make them well in advance and secure tickets early. If your plans are changed cancel reservations immediately.
- * Travel light. Luggage not needed on route can be checked through.
- * When planning any trip, consult your local planning agent, travel agency or nearest Burlington representative. Now, more than ever, you can profit by the counsel of travel experts.

'42 Car Tags to Serve During '43 to Save on Steel

Now is the time for all good men—and women—to come to the aid of their automobile license plates.

The 1942 tags are in for the duration, apparently, and a little elbow grease by way of cleaning and waxing will ease their long-range job.

The state highway department has settled on a policy of one by four inch tabs for 1943, the tabs to be bolted on the present 1942 plates after they are obtained through regular registration channels.

Apparently the same or a somewhat similar policy will be followed as long as the war lasts but right now department officials are happy enough to have settled the 1943 problem, a months-long headache.

What of 1944?

Said one official who prefers to remain anonymous:

"If the paint on your car is as bad as mine you won't be worrying about licenses or any other part of the car in 1944."

He does, however, recommend taking good care of 1942 plates just in case. They are made of comparatively thin steel and need aid in battling the elements.

Regular cleaning and application of preservative—wax or shellac—will help unless you live on the coast. The damp air defies most any protective measures.

The 1943 tabs will be black and gold, the colors the reverse of 1942 parent-plates. The tabs will have black background and gold letters. Each will bear a serial number and the name of the state in addition to the designation of the registration years.

Regular twin plates are out for the duration because of the steel shortage for such purposes. Forty tons of steel will suffice for 1943's baby tabs whereas 800 tons normally are fed into prison system machines for the manufacture of Texas license plates.

The prison system retains the job under the revised plate specifications necessitating alteration of dies and other machinery used in former years.

Where did the 40 tons of steel come from?

Fortunately, the prison system which also makes tags and signs for other governmental agencies had enough of working stock on hand.

Mrs. Floyd R. Dunsworth visited her husband at Camp Barkley over the week end. Mrs. Dunsworth will teach music at River Road school starting August 31.

Farmer Meeting Is Called For Hereford Sept. 2

Farmers from four counties of this area will hear latest reports on legislative and administrative decrees affecting agriculture at a meeting to be held under the auspices of the Farm Bureau in Hereford, Wednesday, Sept. 2.

The conference, in which farmers from Deaf Smith, Oldham, Potter and Randall counties will participate, is one of a series of sub-district meetings scheduled in the Panhandle next week for a consideration of agriculture's status in a world at war.

Reports will be given by state and national Farm Bureau leaders on some of the issues facing agriculture today as brought out at the recent Southern regional farm conference in Raleigh, North Carolina.

Effects of ceiling prices on agriculture commodities, the farm labor situation, the all-out battle to maintain full production through parity prices, the necessity for a strong farm organization and many current problems will be discussed.

Featured speaker will be R. G. Arnold, organization director of the American Farm Bureau Federation, whose forceful presentation of agriculture's position has made him a widely-known and popular speaker throughout the South.

W. M. Deek of Perryton, vice-president of the Texas Farm Bureau, will preside and discuss various points brought out at the Raleigh conference, and G. W. Haggard of Waco, editor of Texas Agriculture, will explain latest developments in the move to increase the production of synthetic rubber from grain. A round-table discussion of local farm problems will follow the talks.

The meeting will begin at 2:30 p. m. in the Deaf Smith county courthouse. All interested farmers are invited to attend.

Miss Martha Frances Campbell left Sunday for Fort Worth where she will attend Texas Christian University this fall.

Mrs. W. Holmes Smith has returned from Plainview where she spent two weeks at the home of her father.

Mrs. J. L. Duflet returned from Kentucky Friday where she had been visiting for the past two months.

Mrs. R. L. Campbell left Saturday evening for San Angelo to visit her son, Bobbie, who will enter the service soon.

New Hospital For Students

New Arrangement To Be Established For Duration of War

Exit—The College Infirmary. Enter—the College Hospital.

The unsightly old infirmary building north of Cousins Hall will be razed. The president's home, which for a year has been the Campus Lodge, will become the College Hospital. Necessary improvements will be made as soon as possible and new equipment will be purchased.

These changes were made necessary by the closing of the Neblett Hospital while Dr. R. A. Neblett is in military service. Services of a physician must be obtained, at least on a part-time basis. A number of alternative suggestions were studied by a committee headed by Prof. F. E. Savage before the final decision was made. Other committee members were Mrs. Geraldine Green and Dr. A. M. Meyer.

The Campus Lodge girls and Mrs. Grayson Bell, matron, likely will occupy the large Cone house at 2111 Seventh Avenue. This building has been leased by the College.

Cases involving serious operations

probably will be taken to an Amarillo hospital.

PRESBYTERIAN CHURCH

The theme for the morning worship service in the Presbyterian Church on next Sunday morning will be "Why Be a Christian?" Music for the service will be a solo by Miss Elizabeth McCaslin "As Torrents In Summer" by Elgar; Mrs. Harry Brown is director of the choir and Miss Anita Davis will be the organist for the morning.

Sunday School will meet in all departments at 9:45 a. m. and Young People's meeting will be at 7:30 p. m.

Another genuine privilege in Christian co-operation will be given when the Presbyterian Church joins the Methodist and Christian Church for the Community Evening worship services at the Methodist Church.

Mr. and Mrs. W. A. McCarty of Amarillo spent Monday with Miss Nora McCarty and Mr. and Mrs. W. A. Warren and Bernard.

Mr. and Mrs. Harley Stone of Amarillo spent the week end with her parents, Mr. and Mrs. Guy B. Tabor.

Mrs. R. A. Neblett and son, Charles Robert, returned Friday from Galveston.

Miss Columbia Redfearn visited in Happy Sunday.

Buffalo Mentors Look Toward Tech Encounter

West Texas State's coaching staff assembled this week for the fall campaign but took only a short look down the path ahead.

The reason is easy to see. Texas Tech, one of the toughest opponents in a hard schedule, will be played in the opening game. This will be played in Lubbock on the evening of September 26. As the first game between the territorial rivals in more than a decade, this will be a battle of widespread appeal.

Coach Gus Miller's first assistant, W. W. (Windy) Nicklaus, came to town this week and immediately started calling the roll of his line-men. Barring losses and injuries, and assuming that some good Buffalo can be made over into dependable center after the fashion of Aladdin rubbing his lamp, Nicklaus will have a strong but not heavy forward wall. Most of the starters will be lettermen.

"These men have poise and they are stout fellows, although not large," Nicklaus observed. "But I like their type. They are rangy and seem fairly fast, and strong without being ponderous."

Coach Miller was not so optimistic. He must rebuild the backfield and develop a tailback, punting, and kicking—and do it quickly. He has some plans, and some freshmen and transfers to bring to training camp September 5, but he is issuing no communiques. His schedule calls for a Border Conference campaign from the first game through the seventh, followed by a game with Sheppard Field in Wichita Falls on November 21.

Mrs. O. D. McLellan of Norman, Okla., arrived Wednesday to visit her parents, Mr. and Mrs. F. A. Thomas. Her husband is in training at Ft. Sill, Okla.

W. H. Upchurch, H. R. Fulton and O. A. May are on a fishing trip to Creede, Colo.

Miss Virginia Frizell is working at Shiek's Cafe.

Recruit Part-Time Army In Food for Victory Drive

Assistance in gathering in the crops provides healthful fun and relaxation, as well as helping to feed themselves and our allies. Everyone is urged to join the part-time land army.

MEN and women, employed or unemployed, are being urged to join the part-time land army now being recruited by the U. S. Employment Service, to help in harvesting crops. Workers will be made available to help farmers needing emergency assistance in haying, shocking grain, picking fruits and vegetables, digging potatoes, and other farm jobs which reach their peak in late summer.

Many workers now employed in factories, stores and offices will volunteer to help relieve the

farm shortage, government officials believe. Other programs initiated to help farmers include the registration of high school and college youth, recruiting of women in selected areas through a door-to-door canvass, and utilization of other labor reserves not trained for industrial war work.

Sharing the work will bring extra earnings to many households, outdoor work has a definite health-giving value, and there is real satisfaction in sharing in America's war effort.

YOU'RE RIGHT tootin'

Says William Allen White
"The Sage of Emporia"
about America's Railroads

"You ask me whether I think the American railroads are doing their jobs in this grave crisis. Well, I would say, you're right tootin', they are and tootin' is the word!

"I live six city blocks north of the Santa Fe main lines. All trains between Chicago and Galveston, between Chicago and Los Angeles and San Diego east or west, go right by my door and you should hear them toot. Try to sleep with your south windows open on a summer night and you will certainly hear them toot . . .

"It's a continuous procession of swift passenger trains laden with soldiers and long grumbling, rumbling freight trains often with two engines and all night they sound like some cosmic rooster crowing to spell the dawn of the day of doom for America's enemies.

"No other service in the United States is doing such a swell job as the

American railroads. They were ready for it. When the warning came in '39 after we repealed the embargo clause of the Neutrality Law, the railroads knew what was coming. They are now equipped with cars and with rails. Their roundhouses are full but not clogged. They keep the wheels moving.

"The American capacity for organization under crisis never was exemplified so splendidly as the American railroads have proved their worth and excellence. It is a great job well done. It is a sort of thing that Americans do better than anything else. Our hard common sense, our indomitable purpose to achieve, all these are back of our effort. The railroads have done their work without friction with either labor or capital. They have responded to a great emergency with splendid intelligence.

"And are they doing their job? You're just right tootin' they are!"

Let's All Pull Together

Increasingly, under war conditions, the railroads must furnish mass transportation, military and civilian, for the nation. The load is already great—and growing steadily. Military movements come first, without question. You can do much to help us maintain adequate rail service for civilian needs as well, in these ways: When you travel, make your reservations

and buy your tickets early; cancel reservations promptly, if necessary; check all personal baggage not actually needed in passenger cars; and spread the travel load by avoiding week-end and holiday rush periods. When you make shipments, order freight cars only to your actual current requirements; load them to capacity; and release them promptly.

AT YOUR SERVICE—Why not talk over your transportation problems with your Santa Fe representative? He'll be glad to help you with practical suggestions.

Fall Outlook Is Extremely Good

Demands for Rooms Above Normal—Most Activities to Continue

The importance placed upon college training by business and government agencies at this time is believed to have a relation to the demand for fall term living accommodations at West Texas State. These room requests have broken all records for this season, according to Mrs. Geraldine Green, dean of women, and Dr. Harris M. Cook, dean of men.

Choice rooms are still available in dormitories, but it is evident that these will be exhausted before the opening of the fall term on September 22. Refinishing of dormitories is now under way. Most college activities will be continued as usual in the coming term, although travel will be restricted and war work will be stressed. Band instruction will be raised to major status, according to Prof. Wallace R. Clark, head of the music department.

The Buffalo football squad, including a dozen veterans, will assemble September 5 to start intensive training under Coaches Gus Miller and W. W. Nicklaus. The team will play eight hard games, opening with Texas Tech at Lubbock on September 26 and closing with Sheppard Field at Wichita Falls on November 21. Seven of the games will be Border Conference contests. Last season the Buffs finished third in football and first in basketball in the strong Border circuit.

THIS IS A PICTURE of 100 Electric Refrigerators

There's enough steel in a hundred electric refrigerators to make one medium tank. The tank also requires all the metals used in the manufacture of other electric appliances. To make a tank, you also need skill and labor to make and assemble its 25,000 parts (5,000 of them different). So the manufacture of all electric appliances has been discontinued. The metal and skill and labor they used are now being devoted to war production.

SO TAKE CARE OF YOUR ELECTRIC APPLIANCES

They will give you good service indefinitely if you'll give them a little care. Keep them repaired. If they need a little adjusting, take them to your appliance repair man. He will inspect the appliance, and advise what should be done to make the appliance give you top performance. We must make the most of our present appliances because there will be no more manufactured for the duration. When one of your appliances fails to operate, don't deny yourself the pleasure of the appliance, but take it to your Electric Appliance Repairman and have the necessary repairs made.

Miss Hazel Cooper Receives Letter From Former Japanese Student

Miss Hazel Cooper of this city was a teacher in the Selma, Calif., schools last year where one-sixth of the pupils were Japanese. She was sponsor of the school newspaper, which was edited by a Japanese girl. The girl was an alien.

Miss Cooper brings a vivid word picture of the situation in California as the people are affected by the concentration of Japanese in camps.

The young Japanese writes Miss Cooper regarding the new home in Arizona to which she was sent for the duration of the war. There seems to be no bitterness in her letter.

State Highway No. 99 running north and south divides Selma. The Japanese living west of highway to the coast were taken in the early spring to concentration camps under government supervision. Those living east of the highway were not taken until August 3.

Concentration of the Japanese was absolutely necessary, states Miss Cooper. Most of the citizens were sympathetic to these people who had lived there for years and considered them loyal citizens. However, FBI agents found that some of the most trusted Japs were gathering military information which could have been used by our enemies. It was difficult to know where to draw the line, for the Japanese people are undemonstrative.

Naturally the plight of Japanese who were considered loyal was regretted by the citizens. To be told that they must be ready to move in a few days; that most of their possessions must be sold and only a limited amount of clothing taken to the concentration camp; to have people bidding a fraction of their value for household goods; were the trials of the Japanese.

The fruit growers and vegetable

farmers of California are taking a tremendous loss as the result of the Japanese being moved out, states Miss Cooper. People of this section do not understand why they cannot find the usual large stocks of fruits and vegetables at their grocery stores. The crops were raised this year, but rotted in the fields for the lack of labor. The Japanese have done most of this work in the past and are very efficient. When a Japanese tells a farmer he will go to work at a certain hour, he will keep his word; but when other laborers in California tell a farmer he will report at a certain hour, chances are he may not show up.

Strawberries could not be picked this year. Fruit growers invited all who wanted the fruit to come in and help themselves. As a result the plants were abused, and next year's crop will be very short because of this lack of care.

The following is the letter from the Japanese girl:

27-3-F1
Gila River Rec. Center
Rivers, Arizona
August 16, 1942.

Dear Miss Cooper:

How have you been for the past few months? Well, I'm finally here in Arizona. Camp life isn't very bad but the weather here isn't very good either.

In the barracks where we live, it is hot all day and practically all night.

I'll try to write you everything that happened since we left Selma. Well—on Monday, August 3, about 500 people loaded a train at Sanger, California and arrived the next afternoon at this center. Getting off the train at Case Grande, we were all very weary and dirty and the sight of our new homes didn't encourage us much either then. However, we are quite settled now and are getting accustomed to this place.

There are three camp units at this center and the fourth and the fifth are now under construction. I live in camp unit one. There are approximately 450 buildings in this unit. There are 27 blocks with thirteen living quarters (barracks). Each barracks consists of four rooms. Besides the thirteen barracks, each block consists of two rest rooms, a washroom, an ironing room, a mess hall and a recreation hall.

Every Saturday night a dance is held in the main recreation hall. So far I've attended only one dance as a spectator. A talent show is said to be held this Wednesday. So you see, there's quite a bit of social life here.

This center isn't complete in several facilities such as plumbing, housing, etc.

I applied for a position on the newspaper, but since there isn't any paper yet, I am going to attend a first aid class—or a nurses aid

DISGUSTED
When you jump," said the officer to the parachutist about to make his first leap, "count to ten and pull the rip cord. If nothing happens, count ten more and pull the second rip cord. When you get down, a truck will be waiting to take you back to camp."

The rookie jumped out of the plane, counted to ten, pulled the first cord. Nothing happened. He counted to ten once more, pulled the second cord. Again nothing happened. Said he, in disgust: "Phooey. I'll bet that truck won't even be down there and I'll have to walk back to camp."

ONE WORD ANSWER

A small boy came home to his mother with the query, "Mother where did I come from?" Mother felt this was the opportunity and proceeded to tell him what she had read that he ought to know. He listened patiently and then said, "That's all right, Mom, but you still haven't told me where I came from. Was it Arkansas or Oklahoma?"

Early History of Canyon Reviewed by Dr. S. L. Ingham

Dr. S. L. Ingham was in charge of the program at the Rotary Club luncheon Tuesday. He discussed some of the early history of Canyon.

Miss Jean Tarlton played two violin solos, accompanied by Miss Virginia Vaughan.

"Not a man in this club would be here today had it not been for Jasper N. Haney, first mayor of Canyon," stated Dr. Ingham.

During 1906 there was a big influx of people into the Panhandle, coming from every direction. The speaker was attracted to Texas and came on a train conducted by Keiser Bros. & Phillips. Mules and hacks were used to transport prospective land buyers over the country. Dr. Ingham bought land, and returned to his home in Iowa, having no intention of moving here.

During the summer of 1906 the doctors told Mrs. Ingham she must move to another climate. Dr. Ingham made another trip to Texas, spending two weeks looking for a location near San Antonio. It was too hot down there and he started home, deciding to come by Canyon to look after his land. Blue and discouraged he did not know where he would move until he met the late Mrs. Oscar Hunt, who convinced him that this was an ideal climate.

In three weeks the Ingham family was moving to Canyon, a town of 700 people.

Typhoid fever broke out here and citizens became worried. Jasper N. Haney led a movement for incorporation and was elected mayor on the progressive ticket.

The Victoria Hotel caught on fire in 1909, a few months after the city council had bought a fire truck and hose. The hotel burned, but the First National building and other buildings were saved by the fire equipment.

A movement was started for an adequate water system and sewer system. A bond issue was carried by the progressives, and typhoid has become almost unknown in Canyon.

When the legislature provided for the establishment of a new normal college in West Texas, these improvements, together with the \$100,000 cash offer for the location of the college brought the institution to Canyon. Dr. Ingham paid high tribute to Mayor Haney who led the fight for all of these improvements, which brought the college to Canyon.

Jack Jackson of the Amarillo College music department led the singing.

Visitors were: Pvt. T. S. Stevenson, Jr., of Sheppard Field; W. W. Nicklaus, new coach of W. T.; Hor-

ace Griggs, C. M. McMurtry, Jack Jackson, all of Amarillo; Rev. Ira Key of Bryan; Jess Armstrong of Canyon.

Protect Your Tires

Use Flexoid Rubber Tire Preservative. It is a revolutionary tire preservative with a base of resinous plastic that protects the tire from moisture, dust, sand and road grease. Easily applied with a brush, quick drying and a half pint will coat 5 regular size tires. Economical too, 60c for a half pint.

THOMPSON'S IMPLEMENTS HARDWARE PHONES 12-13

JUDGE E. L. PITTS, elected Chief Justice of the Court of Civil Appeals.

UNHAPPY MEDIUM

A certain woman, wanting to sing in grand opera, asked a German music professor to hear her. He played her accompaniment and listened to her for a few minutes, but she sang so far off the key that he finally slammed down the piano cover and refused to continue.

"What's the matter?" asked the woman. "Don't you like my singing?"

"Der trouble mit your singing, madam," asserted the professor, "is dot veder I play on de vite keys or der black ones, you sing in der cracks."

Employment, sir, and hardships prevent melancholy.—Samuel Johnson.

Most of us find that it is a much easier job to talk ourselves into trouble than out of it.

Bond Selling To Be Featured by Olympic Theatre

The Olympic Theatre is still asking for pictures of those in the service. Many persons have given pictures of their sons, husbands, brothers, sweethearts and friends of the boys who are fighting for victory. All the pictures are on display in the lobby of the theatre. The display will be kept for the duration of the war, and it is hoped that a picture of every boy in the service can be displayed in their honor.

Starting next Tuesday, Sept. 1, the Olympic will join with other theatres throughout the United States in the billion dollar War Bond and Stamp drive called "Salute to our Heroes Month." The Olympic has been made an official bond issuing agent which will enable them to sell war bonds and make immediate delivery to the purchaser, as do the banks and post offices. This will enable those who are working all day to buy their bonds after working hours which they have been unable to do in the past.

On Tuesday night War Bonds will be sold at the Olympic by Levi

Cole. At 9 o'clock the picture will stop and a Color Guard of the Palo Duro Post will put on a short patriotic program in regard to the sale of War Bonds. Every picture show in the nation is planning such a program at 9 o'clock on Tuesday night, Sept. 1.

Everyone connected with the motion picture industry is in this drive, including the Hollywood stars who will make personal appearances throughout the nation during the month of November.

W. J. Wooten, owner of the theatre, is asking the co-operation of every loyal citizen to help in the buying and selling of bonds and stamps for this drive. "We all can't be in uniform, but we can do our part for the men who wear that uniform," stated Mr. Wooten.

The Olympic will give away a \$25 bond each Thursday night during the month of September and a program of surprises will be carried out during this drive.

Someone has said that we must make men over in order to save civilization. Some wives have been working at this for a long time.

It is estimated that approximately 90,000 Texas farms have turned primarily from horse and mule power to the tractor during the last ten years.
